## February Outing - North West Leicestershire

### Saturday 13th February 2010

Meeting at the Moira Furnace car park at 0900 the idea behind this outing is to promote the wide variety of birds and habitat to be found within North West Leicestershire forming the basis of my local patch. The area has undergone a massive transformation over the last two decades from a very heavy industrial landscape, due to extensive mining, to the beautiful National Forest that we see today.

#### Directions:

Moira Furnace car park is best approached from the A42 Junction 13, follow signs for Ashby town centre, after passing through the main street go straight on at the island, sign posted Moira, continue on this road crossing over two roundabouts, after the second you will pass a Fire Station on the left, Moira Furnace car park is the next turning on the left.

To book a place please contact Andrew Cliff no later than Monday 8th February 2010
